

IntegraDose™

Compounding Services

From Hospitals for Hospitals

We are a health system-owned facility. Everything we make and sell has been proven in our own hospitals.

Reliability Guaranteed

We maintain a large stock of raw materials and finished inventory to mitigate shortage and supply chain risks.

State-of-the-Art Facility

Our 503B compounding facility effectively meets or exceeds all regulations with five cleanrooms and both on-site and external lab testing to guarantee quality prior to release.

Dependable Inventory

Thanks to our health system infrastructure, we're the ones who have access to products that others can't or won't supply.

Sterile to Sterile Products

All components of our products begin as sterile to eliminate potential contamination issues resulting in the safest products from start to finish.

No Quotas or Volumes

No commitments or obligations on quantities gives you hassle-free ordering for only what you need and no more.

Faster Fulfillment

We compound our medications in anticipation of need, based on our knowledge of patient volumes. That focus means we can get our products to you faster—usually in a day—than most other 503B compounding pharmacies.

One Price For All

What you pay is what we pay so you are always guaranteed clear and easy costs that fit your budget.

NEW! Products Added! *We are continually adding new compounded products, check back to learn what's coming up.*

Products

Phenylephrine Hydrochloride 1000 mcg/10 mL in 0.9% Sodium Chloride

NDC: 71139-7084-1

Syringe for Injection (Concentration 100 mcg/mL)

10 mL Syringe - 10 mL Fill

BUD: 180 Days Room Temp

Vasopressin 2 Units/2 mL in 0.9% Sodium Chloride

NDC: 71139-0190-1

Syringe for Injection (Concentration 1 Unit/mL)

3 mL Syringe - 2 mL Fill

BUD: 90 Days Room Temp

Sugammadex 200mg/2mL

NDC: 71139-5355-1

Syringe for Injection (Concentration 100 mg/mL)

3 mL Syringe - 2 mL Fill

BUD: 120 Days Room Temp

Sugammadex 100mg/1mL

NDC: 71139-5355-2

Syringe for Injection (Concentration 100 mg/mL)

3 mL Syringe - 1 mL Fill

BUD: 120 Days Room Temp

Fentanyl Citrate 200 mcg/100 mL + 0.1% Ropivacaine in 0.9% Sodium Chloride

NDC: 71139-5340-4

CADD for Injection (For Epidural Use)

100 mL CADD Cassette - 100 mL Fill

BUD: 120 Days Room Temp

Fentanyl Citrate 400 mcg/200 mL + 0.1% Ropivacaine in 0.9% Sodium Chloride

NDC: 71139-5340-2

Bag for Injection (For Epidural Use)

250 mL Bag - 200 mL Fill

BUD: 120 Days Room Temp

Fentanyl Citrate 2500 mcg/50 mL

NDC: 71139-6030-1

CADD for Injection (Concentration 50 mcg/mL)

50 mL Reservoir - 50 mL Fill

BUD: 180 Days Room Temp

Hydromorphone HCl 20mg/100ml CADD for injection

NDC: 71139-0018-1

(Concentration 0.2mg/mL) in 0.9% Sodium Chloride

100 mL Reservoir - 100 mL Fill

BUD: 120 Days Room Temp

Oxytocin 30 Units in 0.9% Sodium Chloride

NDC: 71139-0012-1

Bag for Injection (Volume ~545 mL)

500 mL Bag

BUD: 120 Days Room Temp
